

Tinus Steyn Greyling

Gauteng, South Africa

Email: tinus.greyling.example@gmail.com | Student ID Ref: C04021

PROFESSIONAL SUMMARY

Result-driven and qualified software programming graduate holding a completed NQF Level 5 Diploma in Programming. Competent across multiple development paradigms with academic project experience in application design, enterprise networks, and system architecture. Seeking a junior software developer or systems analyst position to provide reliable programming support and contribute effectively to organizational infrastructure goals.

EDUCATION & QUALIFICATIONS

Diploma in Programming (2 Year NQF 5)

Completed (Academic Record: 2011 - 2012)

- Acquired foundational knowledge in multi-paradigm software development including Java, Visual Basic, and Advanced Visual Basic architectures.
- Demonstrated solid logical aptitude in core frameworks, achieving final marks of 82% in Java 201, 79% in Enterprise Networking, and 81% in Information Systems.
- Completed a comprehensive Programming Practical Project, demonstrating applied knowledge of software engineering fundamentals and delivery.

CORE TECHNICAL SKILLS

Programming Languages: Java, Visual Basic, Visual Basic.Net, Structured Programming Concepts

Web & Database Development: Web Programming (Advanced), Web Programming in VB.Net, Database Design and Development, E-Commerce Systems

Systems & Networks: System Technology, Enterprise Networking, Business Systems Analysis, Business Systems Design

Professional Competencies: Enterprise Communication, Project Execution, Analytical Problem Solving, Enterprise Organisation

ACADEMIC HIGHLIGHT PROJECTS

Programming Practical Project (PLP206)

Academic Deliverable

- Synthesized core software concepts to design, document, and present a functional standalone application following structured lifecycle methodologies.
- Utilized systematic testing and validation protocols to verify code modules against initial architecture requirements.
